The third game of the series between Minneapolis and St. Paul for the GLOBE trophy was played at Minneapolis yesterday, and won by the locals with hands down. Though the game does not count in the league series, there was a good attendance, drawn out principally by the announcement that a new pitcher was to be tried. The new discovery turned out to be young March, who has pitched for the Lyndales, the leading amateur team in the state, and he made a good impression. He has considerable speed and a remarkably wide curve, and with experience will pitch a fine game. Practice will teach him not to follow a curve that has just deceived a batsman with another of the same kind, as he did yesterday frequently, and on which most of the hits were made. He pitched out the game and was hit safely six times, but never consecutively. The local team supported him beautifully, and had the ground been open the St. Paul sluggers would have been shut out. Their two runs were on hits which just cleared the fence. For two innings, Tuckerman was pounded savagely, but after that

St. Paul Globe June 23, 1888: 6

St. Paul could do nothing with March. Ringo dropped the ball over the fence in the fifth inning and Carroll drove it over again in the ninth, both hits being on empty bases. Though onesided, the game was a pretty one, and the field work of Tebeau, Pickett, Shafer and Brosnan, with a fine pickup by Hawes, deserve special mention. Score:

TO-DAY'S GAME.

STOLE A MARCH.

March, the Young Amateur Pitcher, Lays Out the St. Paul Team.

The St. Paul and Minneapolis clubs played a game on the South Minneapolis grounds yesterday afternoon. It was another of the series of the St. Paul Globe trophy games and was won easily by the home aggregation. March, the young amateur pitcher who has formerly played with the Lyndales, and who has developed surprising power as a pitcher of late, was put in the box and surprised everybody by winning the game. The St. Paul boys evidently thought that they had a soft snap at the beginning of the game, as they began playing in a decidedly loose and hersey fashion; especially Reilly and Carrol. Manager Barnes, however, put a stop to that and made them play ball. On the other hand the locals all played well, supporting March admirably. The young fellow surely displayed that he was possessed of the necessary characteristics to make a good pitcher, as he watched the bases like an old timer, and held the sluggers from the saintly city down to six hits. Four two-baggers netted Minneapolis four tallies in the first inning, and in the second inning the same number were brought in by the aid of two errors, two stolen bases, fielders' choice, three singles and one two-base hit. In the ninth the last score was brought in by

Young March, the promising amateur pitcher signed by the Minneapolis club recently, will remain at home unless some of the regular pitchers are disabled. He has been loaned to the Lyndales, who will shortly make a tour of the Northwestern towns.

Frank March, the young pitcher from Kamloops, who won Thursday's game for the Tacoma, refused to attach his name to a Tacoma contract Thursday night. The refusal was taken hard by Manager Lucas, as he "kicked" him. He goes to Port Townsend, where he plays with the local team. It is probable that March may be signed by Manager Rockwell.

The Tacoma club, although given a serious setback by the loss of France and Fanning, is making a brave effort to gather in some good pitching material. First of all it is after "Peachblow" Hoffman, the star twirler of last year's Sacramentos. An effort will also be made to corral Cross, who did fine box work last season for the Manchester, N. H., club, along with Seattle's new pitcher Dunning. "Dad" Clark, with whom negotiations were going on, is reported to have signed a Western Association contract. Frank March, whose arm gave out last season, may be given a trial, but the management is not counting at all heavily on his work. Last season's players who are sure to be

The fact that Umpire March has fined Tacoma players only was remarked last night. He fined Speer yesterday for an exhibition of disgust at his decision on a called ball. Nobody objected. Objection was raised, however, because March did not fine Hatfield and other Seattle players for showing bad temper. "Sauce for the goose," etc., ought to obtain with an umpire. However, Mr. March is something of a revelation as an umpire. He has a fine voice, thinks quick and savors his work with more than average judgment and fairness. He is now fairly well brushed up on balls and strikes. As a rule he does the right thing at the right time. His work here has been nearer satisfaction than it is the fortune of most umpires to reach.

BUTTE, Oct. 12.—The Butte ball team, Montana's first champions, left at 3:30 this afternoon on their trip through the South. Through the close-fistedness of the Butte capital committee, they did not travel in a decorated Pullman car as contemplated, but they bought first-class tickets just the same, and the best will not be too good for them on their trip. They heaped coals of fire on the capital committee's head by wearing "Butte for the Capital" badges, but they were intended more as a joke than anything else. The party as it left here was made up of Manager Powell and wife, ex-Umpire Frank March, who will look after the club's interest at the gate and alternate with Powell at first base, Mullane, Caplinger, Brennan, Munyan, Bright, Smith, Gulliland, Marr and George White, who will take Werrick's place. Werrick will remain in Butte and Lucid left yesterday for Spokane.

Frank March, the popular umpire, is working in Clark's bank; nothing could be learned from him as to what his plans for the future are. As an umpire March has few superiors and he should have no trouble in securing a situation with some league to fill that important position. From all appearances baseball is dead in Butte, the gentlemen who backed the team last season having had enough and will hereafter stick to other athletic sports.

FRANK MARCH KILLED

Fatally Shot at Grand Forks by W. E. West in a Hotel.

FORMERLY LIVED IN THIS CITY

March Was Well and Favorably Known Here—Was Clerk at the Butte Hotel and a Baseball Umpire in the Old League—Cause of the Shooting Not Yet Known.

The many friends and acquaintances of Frank March, formerly of this city, were grieved to hear the news that he met his death in a shooting scrape at Grand Forks last Saturday.

Frank W. March was formerly clerk in the Butte hotel, and during the baseball season of 1903 was umpire for the state league in this state. He was a baseball enthusiast and a jolly companion in any company. During the last few years he has been on the road for a wholesale shoe house. The inside history to the trouble which terminated so fatally has not yet been disclosed. His assailant, W. E. West, is also a traveling salesman, and it is claimed both men were fast friends up to within a short time of the shooting. One version of the affair is as follows:

Saturday evening West was reading in the hotel when March entered. March sat down at one of the tables and began making remarks directed towards West to another companion.

West thereupon laid his paper down and crossed the street to the Dacotah. March followed him, and when he reached the latter hotel, approached West and asked him if he had a revolver. The latter said:

"No."
March then said:
"Well, you had better get one," and at that he struck West twice, knocking him to the floor.

The two were separated by W. B. Wood, of the Dacotah, and it was thought that the trouble was over, when West pulled the gun and fired.

No Chance of Recovery.

The Grand Forks Herald of Tuesday, December 3, gives the following account of the events subsequent to the shooting:

The shooting affair that occurred in the Hotel Dacotah late Saturday evening had a fatal termination yesterday afternoon about two o'clock, when Frank W. March, who was shot by W. E. West, breathed his last.

From the time that the doctors concluded the examination at the Deaconess hospital Saturday evening after the shooting, they held out no hopes for his recovery, and yesterday morning it was stated that the patient could not last the day out. The body was at once taken to McDonald's undertaking rooms, where it was prepared for burial. It will be taken to the apartments formerly occupied by Mr. and Mrs. March at the Prescott today.

The funeral will be held in this city Wednesday afternoon at three o'clock from the Presbyterian church, under the auspices of Grand Forks lodge No. 255, B. P. O. E., and the sermon will be delivered by Reverend F. H. Hays. Wednesday evening the remains will be taken to Minneapolis for burial.

From the time Mr. March was taken to the Deaconess hospital and became unconscious he did not fully regain consciousness till the end. He had a few lucid intervals, and recognized his wife, his father and other relatives who were present, and a few friends, but nothing passed his lips but faint greetings, as the doctors forbade any exertion on his part. Death came without a struggle, and there was not the lucid interval that is experienced in some cases.

Coroner's Inquest.

As soon as death was announced State's Attorney Wineman notified Coroner Rounsevell, who came in from

Coroner's Inquest.

As soon as death was announced State's Attorney Wineman notified Coroner Rounsevell, who came in from Larimore on the evening train, and held the inquest last evening.

There were present at the inquest representing the state Coroner Rounsevell, State's Attorney Wineman, Assistant State's Attorney Scott Rex, Sheriff Collins and a few spectators. The witnesses examined were four in number. W. B. Wood was the first witness called, and told the story as it has already been published, with the exception that he said that when West pulled the gun he (Wood) was between March and West, and that the latter stepped to one side of the witness before he shot. He estimated the distance between the two men at from ten to fifteen feet when the shot was fired. This testimony was corroborated by P. McDonnell, the next witness, who gave no new testimony.

Nature of the Wound.

Doctor Wheeler was called and said that death had been caused by septic peritonitis, which had been induced as the result of perforations in the bowels in five or six places, made by a bullet, which had also perforated the pelvic bone and was found lodged in the lower part of the back. These facts were discovered at the autopsy performed late yesterday afternoon. Doctor Wheeler produced the bullet which had been extracted from the body of March, and it was found to be of 32-calibre instead of 28, as first reported.

Chief of Police Ryan was next called, and testified to having been called to the Dacotah, taking a gun from West, who he then arrested, and who was still under arrest. He said there was no resistance on the part of West. The gun was produced by him and was found to be an Iver & Johnson, of 32-calibre, and contained five loads, and one discharged cartridge.

After this the jury retired and within a few moments returned a verdict to the effect that Frank W. March "came to his death at the city of Grand Forks, N. D., on December 2, 1901, as the result of a wound made by a leaden ball fired and discharged from a certain firearm commonly known as a revolver, in said city of Grand Forks, N. D., on November 30, 1901."

Preliminary Hearing.

Great interest is felt generally in the approaching trial of W. E. West, says the Herald. State's Attorney Wineman stated yesterday that the preliminary hearing would probably be held today before Judge McLaughlin. The state will be represented by State's Attorney Wineman and Assistant State's Attorney Scott Rex. It is possible also that Tracy R. Bangs will assist the state as a representative of some of the relatives of Mr. March, but it is not certain that this arrangement will be made. It is probable that the attorneys for the defense will vigorously object to it, and later developments will determine whether or not he will be associated with the representatives of the state.

West Declines to Talk.

Cochrane & Corliss will represent the defendant, and in addition Bosard & Bosard will see that nothing is left undone for Mr. West, acting under instructions from George G. Wright, the employer of the defendant, of St. Paul, who wired the last named firm to that effect, and further stated that if Judge Fisk decided that the defendant could be admitted to bail that they would arrange for it.

There was a constant stream of visitors at the jail yesterday to see Mr. West, and several of the prominent business men of the city expressed a willingness to aid him in any way possible, and stated they stood ready to furnish bail if the judge decided that the offense was bailable. Mr. West refuses to talk for publication by advice of his attorneys, and it is therefore probable that none of the inside of the trouble that ended fatally will be made public till the trial commences. As both the men engaged in the controversy had been boarding at the Hotel Prescott for months past, there are several who have known of their relations all during that time, and there may be interesting developments later.
