

Pedros
Chicago 1888

Pitcher Pedros has achieved a wonderful success during the present season, and it is likely, recommended by his present work, he will secure a National League preferment before the present season closes. He is large and massive in frame. His strength is lasting, he having played four games in three days, throwing as effectively in the last game as in the first. He is an excellent batter and a good fielder. It is rumored about at the present time that he is to go to Buffalo within the coming week.

C. T. PEDROS.
