WAGNER DISTRICT

ATTENTION

MR. SCOUTMASTER

HERE'S YOUR FALL CAMPOREE MANUAL

Explaining troop and patrol participation, registration data, the projects inspections, the point scoring system, and other data. INSPECTIONS AND PATROL PROJECTS WHICH ARE TO BE USED ARE EXPLAINED IN THIS LEADER'S MANUAL.

Your troop will derive its biggest benefits from the preparation you and your leaders make in advance. Preparedness can only result in a well-built capable team, the PATROL. Preparedness can result in but one type of award, that of the highest for both the patrol and the troop. Underlying such preparedness we find the development of the patrol system, the development of boy leadership, the sharpening of camping and Scouting skills, and troop pride in achievement.

The Camporee will operate strictly on a patrol system; natural patrols will be used.

Thus, each Patrol leader will require one (1) of the Camporee Manuals which outlines what is expected of the patrol.

In a Troop Leader's Council Meeting, go over the manual very carefully with your patrol and troop leaders.

After complete discussion and understanding, plan the forthcoming patrol and troop meetings so as to be in readiness for the Camporee. Special bonus points will be awarded for a "practice" campout, on your own, of at least 24 hour duration.

Then at least three (3) weeks before the Camporee date, fill in the attached form and mail. Be Sure that your patrol names are included on this form. This will enable the district to begin setting up scoring and campsite assignment procedures.

If your troop lacks necessary camping gear, please call the council office so that proper arrangements may be made to service your requirements.

Other troop officers, such as your Senior Patrol Leader and Junior Assistant Scoutmasters will assume their regular duties as assigned them in the Scoutmaster's Handbook. (Chapter 11) They may not be members of a patrol, but they could serve on the Encampment staff.

ATTENTION

PATROL DISH WASHING

Good dishwashing techniques involve everyone. Both "cleanup Scouts" and other patrol members have responsibilities.

OTHER SCOUTS DO THIS

4. Each Scout wipes off his own eating utensils.

5. Then he washes them in pot of wash water.

6. Now he rinses and sterilizes utensils by dunking them in pot of rinse water.

7. Finally, he air-dries utensils by placing them on a plastic sheet.

"CLEANUP SCOUTS" DO THIS

1. Start with full pot of boiling water. Some of this, mixed with cold water and liquid soap, becomes the wash water.

2. Add sterilizing agent to the remaining hot water for rinse water.

3. While other Scouts wash their utensils (see next column), "cleanup Scouts" begin cleaning cooking pots.

One fact is for sure—efficient patrol dishwashing is necessary to successful patrol cooking.

Actually, the task should not take longer than 20 to 25 minutes if it is a *teamwork* job. The two “cleanup Scouts” set up and supervise the operation, but each patrol member takes care of washing and rinsing his own personal eating gear. Here are the steps to follow:

- The first thing cooks should do to start the meal is to put a large pot of water over the fire. This is used for hot drinks, soups, cooking, etc., during the meal preparation. This pot is refilled with water and placed over a good hot fire *before* the patrol sits down to eat.

- Right after dinner, cleanup Scouts prepare dishwashing water in a second pot by adding soap to a mixture of hot and cold water in the smaller pot. Leave the rinse water over the fire as long as possible to keep it boiling. Spread out a plastic sheet to air-dry dishes. For handling utensils in hot rinse water, use hot-pot tongs.

Note: New chemical germicides are now available which maintain stability in very hot water. When used, the rinse water should be kept as hot as possible to aid air-drying of utensils, but it no longer needs to be kept at a rolling boil if a sanitizing agent has been added.

- Each patrol member wipes out all food particles and grease from his personal eating gear with leaves, dry grass, snow, or paper towel before washing them. (Be sure to burn grass, leaves, or paper.) Two patrol members volunteer to do the personal dishes of the cleanup Scouts; they should be first in the dishwashing line. Cleanup Scouts start scraping out cook pots.

- Each patrol member washes his own dishes. After they are washed in the hot soapy water, the dishes are dunked in the boiling rinse water for a minute, then placed on the plastic sheet to air-dry. Towels should not be used for drying. All of the personal dishwashing should not take longer than 5 or 6 minutes at the most. At this point the other patrol members may leave and the cleanup Scouts finish the job.

- Using a minimum of water with a soft metal scouring pad or abrasive cloth, cleanup Scouts wash out the inside of all pots. They wash and rinse cook pots, then place near fire to dry. (An important tip on pot washing—soap the outside of pots before using them over the fire.)

- Cleanup Scouts spread garbage on the fire to burn. Cans are burned out and crushed and glass containers are washed out and placed in trash disposal or tote-litter bag.

Note: Every patrol should have tote-litter bags with disposable plastic liners to carry out all unburnable trash and garbage. A tote-litter bag is easily made by lining a cloth or heavy paper bag with a plastic bag which is closed with a rubber band or twist sealer. The bag is carried out in the boys' packs where food was carried in. Dispose of inner bag with trash and garbage at nearest recognized disposal or take it all the way home. *Do not bury it.*

- Store dishes and cook pots in a dry, flyproof place such as patrol food box, plastic bags, equipment packs, etc.

- Clean up fireplaces and police the area. Clean, hang up, or put away all dishwashing equipment in a place where it will dry out thoroughly. Check fire before leaving to be sure that it is completely out. *Remember:* This whole process is easily completed by a well-organized patrol in a half hour or less!

PATROL EQUIPMENT FOR DISHWASHING

Two large pots—one for rinsing (6 to 8 qt.), one for washing (4 to 6 qt.)

In long-term camping, larger pots are more convenient

One dish swab

Liquid soap in plastic container

Chemical sanitizing agent

Two or three scouring pads of soft metal or abrasive cloth

Dunking equipment (hot-pot tongs and net dunking bag, if desired)

One plastic sheet, 4 by 4 feet, on which to air-dry dishes

Water container

Two or more large plastic storage bags for dishes

Roll of paper towels
